District Judges

Western Nevada Republicans regard it as settled that Judges Rising and Mc-Kenney will be nominated as two of the three District Judges this Fall. Now that the Supreme Court has declared the new Judicial law as legal the fight for population parrows down pery mathat the Supreme Court has declared the new Judicial law as legal the fight for nomination narrows down very materially, leaving only one more Judge to be selected, and right here comes the rab. For this lone nomination there are aspirants in the persons of Judges Murphy, of Esmeralda, Edwards, of Ormsby, and Bigelow, of Elko, each with many friends and good records behind them. If these three gentlemen are all who aspire to the judicial honors they can all be accommodated in this way. Let them agree among themselves as to which one shall run for the third District Judge, then let the remaining two decide which shall go for Supreme Judge against Judge Belknap, and the last one can take the Attorney Generalship. Of course if other candidates come in it is very likely to muddle this arrangement. Lander's fight is for McKenney and feels disposed to let the rest of the State settle its own difficulty in the best way possible.—Austin Reveille. Austin Reveille.

Mr. Blaine's speech at Portland, Me. Mr. Blame's speech at Portland, Me., last evening upon the Irish home rule movement was bright and vigorous, as might have been expected. When Mr. Blaine speaks he has always something to say, and says it well. Moreover, he generally voices American sentiment on large questions, and in this instance has done so emphatically.—S. F. We fear the Enterprise is becoming Democratic in its tendencies. It published an interesting account of Cleveland's marriage in its issue of yesterday.

It is rumored in Washington that "a list of Republican employes is being prepared, and wholesale removals will shortly take place." It takes a very great man to think of his wedding and reform the civit service at the same time. It is feared Mr. Cleveland is not equal to it.—Enterprise.

The Senate Committee of commerce has reported favorably on Eads' Ship Railway scheme, and recommended assistance on the part of the U.S. Government. This is a victory for Eads, and may be the means of having his railroad transmitting ships by rail from ocean to ocean long before the completion of the Panama Caual.

President Cleveland and bride arrived at Deer Park, Maryland, at 4 o'clock yesterday morning and are domiciled in one of the cottages to the hotel. There are but few persons there as there was no knowledge that the bridal party would go there. A large influx of visitors is looked for as soon as it it known the Republican managers here; bence that the newly wedded couple are at | Deer Park.

The New York Times says editori- from the General Land Office Tuesday ally: John Kelly was an honest and incorruptible man, but he was so little careful about the company he kept that he was constantly in most intimate and confidential relations with men of notoriously dishonest and corrupt lives, appointing them as his agents, accepting without protest their valuable assistance in carrying out his plans, and joining without repugnance in their efforts to accomplish their own selfish end, often dangerous designs. Shunning all enticements to evil himself, he inflicted upon the suffering people of this city a plague of office-holders, who cheerfully and engerly, and as a matter of basiness, fell before every temptation to

The Lyon County "Times," vs. the EMBARRASSED DIPLOMATES. Rena "Journal."

Quite a lively interchange of sentiment has been going on between the above journals for some time past. The Times charges that the Journal for the last six months has contained little more than complimentary clippings of the Democratic Administration and of the Hon. J. G. Fair. The Times seems to have made good its charges. It is probably a rather difficult thing to criticize the present administration as it deserves and its chief dispenser of Federal pat-ronage in this State while in the enjoyof a fat Federal office. It is impossible to keep a divided allegiance beiween Republicanism and Democracy, and the ulterances of a newspaper that attempts this impracticable feat will have a vague and uncertain sound. Neither Mugwumps nor Mugwumpery has yet acquired much of a foothold in Republican party of Nevada. It march with solid column in the the next Senatorial fight, and will tolerate no laggards in its ranks.—Enterprise.

The Enterprise should remember that it ought not to throw stones from a glass house. If there ever has appeared anything in its columns against Senator Fair we have never seen it. The Jour-NAL respectfully invites the Enterprise to open the campaign against Fair, and will promise to reproduce the article in full. Even in the campaign when Fair was elected we remember that Fred Hart was muzzled, and the paper said nothing. Six years have passed, and still nothing has been said. What is the matter with Mr. Yerington? There need be no fear. nomatter what the Enterprise may do, that when the campaign opens the Jour-NAL will do its share toward Republican success, and it asks nothing from the Enterprise or Lyon County Times, or Mr. Fair or the Democratic Administratime to talk of political subjects to the exclusion of all other matters. The Enterprise is owned by Mackay and Mills, the Sharon estate, and other rich men and interests. The Journal is busy rustling \$400 or \$500 in mouthly ads., etc., to keep on the even tenor of its

Matne Politics. A New York World's correspondent in Portland, Me., says: "The political tide has been sluggish in the main for the last two years. Ever since Mr. Blaine was defeated for the Presidency the Republicans seem to have been dazed and the Democrats to have been disappointed; hence the season of inactivity in a State where politics are usually exceedingly lively. But this is changing now. Signs of an interesting revival are everywhere apparent. I may truthfully say that the Presidential campaign of 1888 is opening here, and ginning of September this region of fish and pine is to sound the alarm for war and make a satisfactory proclamation to the Republicans of the entire country for one of its great citizens. It is the first State to speak for the old purpose in a new guise; hence the desire of its political leaders, especially on the Republican side, that it shall pronounce with the old-time emphasis. Governor and State !officers are to be chosen to serve for two years. The next Republican nomination for the Presidency will have been decided before these people appear at the ballot box again. Therefore, whatever moral support on the outside the Republicans of this State can give to Blame for the second Presidential nomination, they must give him this year. No one in the Umted States understands this so clear as do the early preparations are for the greater effect."

The following circular was issued

To Registers an United States Land Office-GratLEMEN The repeal of the Pre-emption, Timber Culture and Desert Land laws being now a subject of consideration by Congress, all applications to enter hands under said laws are hereby suspended from and after this date until the first day of August, and you are hereby di-rected to receive no filings or new applications for entry under said laws during said time.

WILLIAM A. J. SPARES, Commissioner, Approved, L. Q. C. Lamar, Secretary.

The Republicans of Mame are already commencing to boom Blame for the nomination in 1888. It is undoubtedly true that Blaine is stronger than ever with the people.--Sac. Bee.

They Don't Know What to Do, and

Think They Have Been Snubbed. Washington, June 2.—The most remarkable meeting ever held by the Diplomatic Corps took place at the residence of Viscount Das Nomueiras, the Minister from Portugal, No. 1,404 H street, beginning at 10 A. M, to-day. There was a very full attendance, as the meeting was called to decide upon some appropriate mode of procedure to extend the compliments of the representatives of foreign countries to President and Mrs. Cleveland. It was agreed that the situation was an extraordinary one. In one respect the wedding was an extraordinary one. In one respect the wedding will partake of the custom of roy. alty, inasmuch as when an Emperor. King or Czar takes unto himself a wife the bride elect has come to him to be married, instead of the groom going to her home, as is the custom in all other marriages. The Diplomatic Corps, however, have not been officially notified of the wedding, and at the meeting quite a number of them expressed their embarrassment at the existing condition of affairs. One proposition was that the corps should go in a body to the White House upon a date agreeable to the President and his wife and extend their official congratulations. The second plan was for each Representative to call informally with the same object in view.

CHARACTER STUDY OF A MULE .-- One of the most entertaining papers in the June Overland is a character study of a government mule, by Colonel Tessin, who recounts his personal experience with the most remarkable animal, Comanche by name. He would doubtless have been named Apache, or Geronimo, as appropriate to his character nowadays, but it was ten years ago that Colonel Tassin undertook to achieve the round trip from Fort Wright to Ukiah and back, in Winter, upon Comanche's back. The successive adventures with the enterprising mule bear an appearance of being related with historic accuracy; and though they are somewhat astonishing in their character, the portrait is probably from life.

AN IMPERIAL CHINESE WED-DING.

A Tientsin letter to the New York Sun says: "The Chinese Government seems to be entirely absorbed just now in making the preliminary arrangements for the young Emperor's marriage and his assumption of authority as the actual head of the state. The first of these arrangements is for him to worship at the tombs of his ancestors, and this requires a journey of about one hundred miles to the northwestward. A special road has been built for him to travel over. It is covered with yellow sand, and furnished with imperial lodging houses at suitable intervals, and cannot be used by any one else till be is done with it. He will be accompanied on his journey by a large retinue, including the Empress Regent (his aunt), the Seventh Prince (his father), the Vicercy Li Hung Chang (his tutor), and many of the grand dignitaries of the Empire. He will start at three or four o'clock in the morning from the imperial palace at Peking, will ride in a covered cart, and all the streets and roads through which his cortege passes will be carefully guarded from foreign eyes. It is understood that he will have to repeat the journey to the tombs of the dynasty after his marriage, which is set for next year, but after that it will

not be required of him again. "Of course the journey and attending ceremonies will be regulated according to well-established custom, and will be very grand, including as they will the most important Chinese officials, besides servants and onlookers, who are permitted to take part in them, either as acents or witnesses. It is estimated that the expense of the affair, which will last about ten days, including the time spent in going and coming, will be somewhere between five hundred thousand and a million.

"It is also said that the Empress Regent has selected one of her nieces, the daughter of the Duke Chow, as the first wife of the young Emperor, and that the young lady, who is just sixteen, is pretty, amiable, and highly accomplished. She is a great favorite of her aunt, and while she has so far lived in no greater state than the other daughters of the imperial clan or family, she will be hedged at our with andless ceremony after her marriage, if 106 with great comfort and magnifizence. Her immediate family is neither tich nor old, nor has it been distinguished, so far as I can learn, for any special qualities on the part of its male members. It is principally noted as having furnished two wives to the late Emperor, Hienfung, both of whom were noted for their ability and strength of character, as well as for their beauty. One of them survives as Empress Regent, the aunt of the young Emperor, Kwanghin, and of the young lady who is to be his wife. She is now the absolute inler of the country, and, although she will be required to retire when the Emperor assumes personal control of the Goveroment, as both she and her sister did upon the assumption of the late unfortunate Tung-chi, she will doubtless remain for the rest of her life the most

The Mormon Labby at Work.

The Tribune's Washington special of May 31st says: An effort will be made by the House Committee on Judiciary to-morrow to make some report on the Edmunds Utah bill, which passed the Senate early in the session, and which has since been smothered in the House Mormon lobby has been at work to prevent the bill reaching the should it come up for consideration. Apparently the lobby has succeeded, as it is now so late in the session that even should the bill be finally reported to the House, its opponents would talk it to death. Hence there is little hope of anything being done by the House.

The statement made in the dispatches that there is a probability of President Cleveland and his wife visiting Europe during the congressional vacation must be set down as a ramor without any shads of authority. It has been the rale since the first organization of the government that the President of the United States shall never leave the country, and President Cleveland is not at all likely to infringe upon this rule.

No Assessment .- There is no assessment this menth in the Nevada jurisdiction of the A. O. U. W., no death having occurred in May. The Nevada jurisdiction embraces this State and Idaho, Utah, Montana and Wyoming Territories.

THE LITTLE GIANT FENCE MACHINE FOR MAKING THE UNIVERSAL COMBINA-TION FENCE-DAVID YOUNG, PATENTEE. —Young and Jennings have just received one of those machines for which they have purchased the sole right to manufacture and sell this now universally known and guaranteed to be the best, most durable and portable fence ever manufactured, and peculiarly and especially adapted to fill a long felt want. This fence is needed and in time will be used by everyone that requires a fence, either around the house. garden or ranch. It is cheap, durable and serviceable, to keep in check horses, cattle, sheep, hogs, chickens, etc., and restrain dogs and coyotes, having all the advantages of a picket fence in restraining animals from jump-ing, and not so liable to decay, and at much less cost, and no barbs to injure valuable stock, thus placing it for in advance of any other fence now in usehence it is inevitably the fence of the future. Whorever this fence has been introduced it has superceeded all others. It stands without a rival, and why? Because it is portable. A half mile of this fence may be taken down and removed in a few hours. The material may be bauled and a large number of stacks fenced in a single day. Fields may be fenced for temporary pasturage to turn all kinds of stock, on short notice and but little labor. It is strong—it has been proven by actual test that it is six times stronger than barbed wire. It is durable—it will last three times as long as any other fence. It is hog proof, horse proof, coyote proof, rabbit proof. No fence hitherto tried, except this, will keep sheep in and dogs and coyotes out. It is cheap- in Ohio, Illinois, Missouri and other States where it has been introduced and extensively used it is declared to be from 30 to 40 per cent. cheaper than any other fence, and taking into consideration its durability, at per cent, cheaper. refer you to thousands who have used it -this is their testimony. We will be pleased to furnish, upon application, any information desired, and we think that we can demonstrate that our fence is all that we claim for it. It is the
